Let's avoid compliance pitfalls for our institutions by implementing successful strategies.

KHEAA/KHESLC

Moderator: Bill Ayers, College Ave

The goal of this session is to dispel some of the misconceptions about private loans based on conversations we have had with schools and information we have seen on schools' websites. We also want to show how having a lender list that has been pre-screened by the school based on the school's own criteria is more beneficial to students than a random internet search.

Presenter: Dana Kelly, Vice President of Professional Development & Institutional Compliance, NASFAA

Moderator: Janee Knippenberg, PNC Bank

Few understand the nuances, art, and science of financial aid quite like those in the aid office. But sometimes when we know a subject too well, that knowledge can stand in the way of effectively explaining it to others on campus, most especially institutional presidents. Join NASFAA Vice-President Dana Kelly as she discusses how aid administrators can more effectively "communicate up" about the needs of the financial aid office and the students they serve.

Concord A & B 9:40 a.m. - Return to Repayment: The Precautions and Preparation

Presenter: Shannon Jones, Assistant Vice President, Business Development Inceptia

The pandemic continues and the CARES Act that has afforded some relief to all student loan borrowers by bringing them current and eliminating the need for payments has been extended through December 31, 2022. As the resume-repayment date draws closer, borrowers and schools will be dealing with a much different landscape of repayment than has been seen in past trends.

Understanding the ramifications of a mass resume date on student loan repayment can help you understand the impact it may have on your student borrowers and your school. In this express session, we will talk about the challenges this presents for students and schools along with recommendations on steps to take to ease the strain.

11:50 a.m. about the impact on enrollment)

Presenter: Kathy McDonald, Associate Director of Outreach NC State Education Assistance Authority

Moderator: Dianne Fanning, NextGen

It's hard enough to get students to complete a FAFSA. For too many students, the verification process can feel daunting enough to keep them from pursuing their college dreams. In this session we will discuss the National College Attainment Network's (NCAN) findings on how the verification process impacts enrollment, particularly for underserved populations. Learn how partners are leveraging that data to update verification policies at the federal level and how it can inform your institution's verification policies so that you can ensure financial aid is going to the students who most need it while minimizing harm. Are you tracking your institution's verification melt? Are some student populations affected more than others? Attend this session to learn about ways to use your institutional data to update your policies.

Admissions and Financial Aid teams are both critical to enrollment, so why does the relationship sometimes feel complicated? Are we potentially creating hurdles for students even though they're at the forefront of both of our missions? Join Josh Bistromowitz, Enrollment & Marketing Consultant for MediaCross and former Director of Admissions as he shares his insight and experiences in how admissions and financial aid teams can overcome barriers that benefit all involved — most importantly, the student. Presenters: Dr. Kathryn Marker, Director of Grants, Training & Outreach, NCSEAA

Dr. April Query, Assistant Vice President of College Access and Community Outreach, CFI

Moderator: Emily Herman, MPower

To meet North Carolina's education attainment goal, we need to reach adults as well as high school students. How does your campus reach out or support adult learners? Do you know about resources targeted to adults, such as education tax credits, credit for prior learning, VA Benefits, and wrap-around services? Come to this session to hear highlights from research which speaks to the needs of adult learners, see CFNC resources specifically for these prospective students, and discuss unique financial aid opportunities.

Moderator: Rick Gallagher, Ascent

From Admissions to the Business Office, and from Student Life to the Registrar, Financial Aid departments are required to partner with almost every other office on campus. In this session, hear from Directors of Financial Aid at three different institutions who are leading the way in cross-campus collaboration. Come with your own topics, examples, and questions related to how to effectively work as one institution, rather than individual silos. You will hear real examples from our panelists and have the opportunity to partake in the discussion as well.
