Session Description

USING NSLDS W/O GOING INSANE:

The redesign of NSLDS has left some of us not knowing where we used to find important information. In this session we will go over the new NSLDS system, how to navigate to find all the information we used to have and learn about the reports that are available.

UNDERSTANDING DEI:

Higher education is no stranger to DEI programming. Yet, with a renewed focus on creating equitable and inclusive learning spaces, there may be misconceptions as to what DEI actually Is and what it is not.

TOP 10 AUDIT FINDINGS:

A clean audit with no material findings is the ultimate goal of all institutions. Preparation requires assessing and evaluating business processes on an on-going basis, identifying effective corrective action plans, and engaging campus partners. This session will provide day to-day operational procedures to avoid compliance issues. The 10 most frequent audit findings will be reviewed with practical solutions recommended. Let's avoid compliance pitfalls for our institutions by implementing successful strategies.

Session Descriptions:

PROFESSIONAL JUDGMENT:

What is a PJ? What falls under the scope of professional judgment and what are we required to actually do within the regulations? The purpose of this session will be to provide participants an understanding of awarding of financial aid through professional judgements and all the subsequent processes in the Financial Aid Office.

NEW STUDENT AID INDEX (SAI) & BIG CHANGES YOU NEED TO KNOW:

Learn from Brad Barnett from JMU who has been evaluating how the change from EFC to SAI will impact needs on their campus. Using NASFAA's SAI modeling tool, his school has evaluated changes to students' eligibility for Pell and other need-based funds with an emphasis on students who lose or gain eligibility. The session will offer some ideas for how schools can prepare in the aid office as well as how the aid office can prepare campus leadership for the big changes that are coming our way. After attending this session, participants will: 1. Know how to access and use NASFAA's SAI modeling tool 2. Be able to identify possible aid eligibility changes on their campus and

3. Be able to identify ways to engage their campus leadership for the changes coming on their campus.

Session Descriptions.

Journey from Poverty. . . Helped by a Financial Aid Officer:

Many of us experienced challenging situations when we were younger, and Brad is no different. How do you allow those experiences to shape you? Did you take anything from them to improve your life today, or are you stuck...repeating the problems of the past? Brad will share a bit about his story, including how a financial aid officer provided him the ability to get a college education that opened doors to a new life. Through the story, you will have the opportunity to reflect on your own experiences as you look towards securing the type of life you desire, and contemplate the impact you can have on others as a financial aid administrator. This culminates with learning more about the resources NASFAA provides to help you be the best financial aid officer you can be.

Exploring The Decline of Federal Work Study on Campus:

Are you having trouble finding Federal Work Study students to work on or off campus? This session will explore the decline of student workers and strategize ways to increase participation.

NCASFAA Work Trends:

After nearly two years, the labor market has been reshaped by the COVID pandemic and the recent economic downturn. Fundamental changes continue and the workplace may never return to the way things were before. The purpose of this session is to review recent trends in hiring, job satisfaction, and work/life balance of NCASFAA members.

Coming in 2024-2025: The New FAFSA:

The biggest changes to the FAFSA in history will be implemented in the 2024-25 application cycle - are you ready? Explore the upcoming changes to the FAFSA, including direct data sharing with the IRS and a streamlined Federal Methodology, and learn more about the latest updates on implementation and NASFAA's Student Aid Index Modeling Tool.

Complex Issues in FAFSA that You may have Missed:

This session will address some of the complex issues resulting from the FAFSA Simplification Act. We are all familiar with the change from EFC to SAI, but what about the changes to asset reporting, child support received, determination of family size, provisional independent student, definition of single parent, changes to Pell Grant proration, and the endless reasons for students to submit a professional judgment in light of these changes? We will walk through these complexities and highlight some of the changes you might have missed from other presentations and offer suggestions for how to prepare for these challenges at your institution.
